Sarah,

Hope you are well. Please let me know if anything is happening. I have information to share with you too.

Hello Sam,

I am amazed that you are responding to me so openly from the US, knowing that my e-mail server is being monitored by third parties. Also, calling from a US phone number these days is not secure, even to one of our numbers. Although I personally have nothing to hide, I am concerned that the information you have may compromise your safety. Please wait for a little longer and we will be able to communicate without concern. I will have more information for you in January. Enjoy the holidays!

Sarah

I am in the US. What do you suggest? My money is rather limited at present...

On Mon, Dec 8, 2008 at 4:28 PM, Sarah <sarah@luminadiem.com> wrote:

Hello Sam

Go to the web site [www.ittelenet.com/numbers](http://www.ittelenet.com/numbers). This site provides a list of countries and cities where we have phone numbers available worldwide. I can provide a phone number for you to call me in any of these locations. The less friendly your location is to the US government, the better. Please give me a location and I will provide a phone number for you to call and we can talk safely.

Hello Sam,

We are working on an approach with the UN Human rights Council that will provide the safety we require. This may take up to thirty days. It is best to hold on providing any evidence until this is complete. In the mean time keep your information secure and maintian your personal safety. You have lasted this long, so we are confident that you know what you are doing. We are also concerned that this e-mail is not secure. When the time is right I will provide a secure e-mail address and telephone number for further communication. Be well and remain patient for a little longer.

Sarah,

There is quite a bit of printed material. Approximately 2 (US legal size) file boxes, plus all the electronic records. The tape is on a mini-VHS format. I will see what I can do about getting it converted.

Can you be more specific as to what you are looking for or is it everything? Please advise...

Sam

Hello Sam,

I am on it. I will get back soon. In the mean time, is there any way you can courier me your hard copy information and video if I provide a Fed-X account number?

I do not know... I have all of the information regarding how these items were tied through the treasury instruments etc. However, since the deaths, the electronic system has been altered. The old data I possess is still in hard-copy. My question is one of practicality... Who is going to protect us? I am willing to fight but where is the back-up? Mr. Todt and his family were victims of their own zeal. I respected him, (though at times he could be a bit bizarre). The issue we had was his extreme paranoia did not allow the rest of us to properly be informed and likely was the cause of his demise.

I was there with him, when he delivered the "box" to Parkersburg, I have the video tape. I have the information on the Mitsu. But I want someone with authority to step-up and act in concert and provide the necessary documentation and protections in order to move ahead.

Please advise

Hello Samuel,

How far are you willing to go with this? We have high level contacts at the UN Human Rights Council who would be very interested; however, it is not our wish for you to place yourself at risk in any way. Let us know what you have in mind.
