

Clinton Foundation, Real Investigation - Urgent Plea for Mercy!

Press Release: 10/01/2018

My husband, Harmon Wilfred, a former CIA financial contractor (asset) during the Clinton administration, blew the whistle to the US Justice Department in the year 2000 to no avail on the Clinton's involvement with the CIA in the illegal laundering of BILLIONS of dollars. Harmon perseveres in his effort to make his extensive evidence available to the US Justice Department, while we continue to be maltreated by the New Zealand government in collusion with the United States. Harmon is currently stateless, exiled in New Zealand, and forcibly separated from me, his wife of 20 years, by New Zealand Immigration for 2 years & 4 months...and counting.
