“Coincidence” or Preponderance of Evidence

CLOSING ARGUMENTS

Wilfred v Canada PM Justin Trudeau, Clintons’ CRA “Financial Assassin”

Wilfred v New Zealand PM Jacinda Ardern, Clintons’ “Jailer”

Wilfred v US President Donald J Trump, Clintons’ “Enabler”

A BIG THANKS TO JASON! Carolyn and I cannot thank Jason Goodman enough for the generous contribution of his time, objective reporting, and interview expertise to get this now completed YouTube series of our story out to the global public domain on Crowdsource the Truth. Thanks also to all of the Crowdsource participants for your generous input, prayers and continuing support.

These are the Closing Arguments presented to the Court of Public Opinion summarizing the conspiracy between Canada, New Zealand and the United States against our family and the global human family, under the common thread of the Clinton/CIA/Rothschild cartel, that we have now coined the “Global Shadow Government” (“GSG”).

Could this be what gives Hillary Clinton her renewed energy as leader of the “resistance” in her global tour to thumb her nose at President Trump while reinstating the Clinton Foundation crime syndicate?

In previous episodes, a detailed evidentiary case has been presented to show the influence of the GSG now having control of the Five Eyes (CIA) and the global nation-state central bank network (Rothschild’s) otherwise known as the global economy.

Understanding that the leaders of these nations are the ultimate players of this now embryonic but advancing global take-over, unwittingly or otherwise, I hereby challenge them to stand down and confess to their part in this global financial take-over conspiracy.

The following provides my closing arguments and summary of this cumulative documentary and YouTube interview case, built through Crowdsource The Truth, upon the body of evidence in my evidential website, www.luminadiem.com against the US, Canada and New Zealand to expose the real GSG crime boss (the Clintons) of this international power play. In effect these three nations have become the puppets of the GSG in this global game of bully-boy co-dependent chess.

Wilfred v Canada PM Justin Trudeau, Clintons' "CRA Assassin"

The evidence would show that Canada colluded with the US to avoid being exposed in both my request for investigation against the US, Canada and the Clintons being denied at the US Justice Department in 1999 (by Michael Horowitz under the Clinton administration) and my accepted [UN Human Rights Case #1638-2007](#) in 2007 where 12 articles are documented as violated. The Canadian government also colluded with the US to force us out of Canada in 2001 in fear of our lives, and then charged Carolyn with a multi-million dollar "departure" tax that justified the ultimate freezing of her assets in 2009 to prevent the continued financing of my UN Human Rights case. This is better known as "CRA assassination" or perhaps even terrorism.

Carolyn's attempt to remedy her tax situation by selling her family holding company shares to re-establish her standard of living and continue funding my human rights case against Canada has been consistently thwarted by what she is convinced is government support of the Dare brothers in her minority shareholder oppression court action against them as the majority shareholders. Her brothers refuse to allow her shares to be sold or to purchase them in a now 4-year appeal court battle.

The courts have found in favour of her brothers in spite of them having been reported to the CRA as committing tax fraud since 2000, by refusing to report their offshore tax holdings and profit in the Cayman Islands. Her late "influential" father cut a deal with the CRA to prevent criminal charges and the file was sealed, disallowing this evidence to be presented to the court.

The following is a summary of the Canadian Government's coordinated attack on Carolyn provided by John Hansen, a Crowdsourcer, the Truth supporter and freelance investigative reporter:

***Canadians who value fairness will be appalled** to learn that the Canada Revenue Agency (CRA), possibly to punish her CIA whistleblower husband Harmon Wilfred, brought a very unusual tax judgment against now 66 year old Dare Foods heiress Carolyn Dare Wilfred. The CRA has been charging Carolyn interest in excess of \$1,000 per day on the now principal amount of \$9,000,000 since 2015 after the CRA RETROACTIVELY changed the law on her tax plan originally presented in 2001 by the national tax accounting and law firms of BDO Dunwoody and Frasier Milner.*

***So why doesn't Carolyn just comply with the bizarre judgment, pay the tax and move on** since she owns 27% of Dare Foods, a family-owned company worth hundreds of millions? Carolyn contends that her brothers Bryan Dare and Graham Dare have oppressed her as a minority shareholder by deliberately obstructing her share sale efforts! Only by court action has Carolyn received ANY money from her shares lately, and even that has provided only marginal help because the CRA froze her assets in 2009. Carolyn suspects that the CRA took that step to prevent her from funding Harmon's UN Human Rights cases against what some assert was Canadian government overreach.*

Carolyn's now four-year court appeal effort has yet to result in a remedy for this gross injustice, and her brothers remain intransigent. While they live in splendor, Carolyn lives like the impoverished heiress in Charles Dickens' brilliant, satirical novel, "Bleak House" which relates the fictional case of "Jarndyce vs Jarndyce" which dragged through the British judicial system for decades without any relief for the impoverished petitioners, although it enriched lawyers until the inheritance was exhausted. Dickens' novel actually led to sweeping reforms in British inheritance law which eliminated much real-life inequity.

A public examination of Carolyn's predicament would no doubt result in equally major reforms to Canada's family inheritance shareholder laws. Since years of litigation have not righted a perceived adjudicated wrong or addressed her legitimate quest for relief from this nightmare on Bay Street, Carolyn is now taking her case to the court of public opinion. She and others like her would be profoundly grateful for a transformative outcome like the one put into motion by Charles Dickens' "Bleak House!"

The extensive evidence of Canada's human rights violations against me and my family are outlined in my [UN Human Rights Case #1638-2007](#) illustrated in my documentary website www.luminadiem.com as well as the [March 6](#) and [March 12, 2018](#) YouTube interviews and [outline](#) posted on the home page.

Will Canadian Prime Minister Justin Trudeau finally respond to Carolyn's and my constant plea for justice to his office and in the Canadian courts, or would he prefer to be known as Clintons' "Financial Assassin". We shall see what the Canadian people have to say!

Wilfred v New Zealand PM, Jacinda Ardern, Clintons' "Jailer"

From the time we arrived in New Zealand in 2001 to escape retribution from the CIA/Clintons, both Carolyn and I were experiencing what today is known as extreme PTSD. However, for us the stress is ongoing with the real belief that our lives continue to be in danger by the global reach of the CIA. Every ring of our door bell or knock at the door continues to make our hearts skip.

We made a valiant attempt to create a new life in New Zealand by obtaining a portion of Carolyn estate from her father and investing in a new technology company as well as creating a family foundation to contribute back to the community. Unfortunately, this was not to be.

In 2004, when I applied for a new US passport at the US consulate in Auckland, I was notified that my passport had been confiscated and I must return to Washington to answer to "outstanding issues". As I knew exactly what this meant, for my personal freedom and safety, I was left with no other choice but to renounce my US citizenship and throw myself on the mercy of the New Zealand Removal Review Board for residency. My request and appeal were denied. I then applied for political asylum for which I was fully qualified, including having received credible death threats from the CIA, but again both my application and appeal were denied.

Although as a stateless person, protected under the UN Stateless Convention and the UNHCR, New Zealand refused to grant me any status and insisted that I leave New Zealand, full well knowing that as stateless, I could not legally leave or be deported. This began my “jail sentence” in New Zealand with no right to work or travel. Albeit, this was tolerable as long as I resided with my wife Carolyn and could remain useful in managing her New Zealand investments for no compensation.

Being constantly harassed by the New Zealand media as an “overstayer”, our family charitable trust and related businesses began to decline; with the last straw being the Christchurch earthquakes in 2010 and 2011. With our charitable businesses in shambles, we sold our successful technology company and our home to remain afloat and continued our effort to obtain legal status for me, all the while suffering financially.

In 2015, while Carolyn’s residency application was under consideration, she travelled to Canada to visit her daughter and sell her Canadian family business shares to renew our investment commitment to New Zealand. The day she left, Immigration New Zealand deliberately suspended her right to return without notice as well as further refusing even visitor applications on Humanitarian grounds. It has now been two years and nine months since we were forcibly separated and the pain of that increases daily.

Although it is clear that I cannot leave or be deported, and the attempt to force me to leave and enter into another country unlawfully is simply part of a plan to place my life at the mercy of the CIA, the New Zealand Government continues these unmerciful acts of human rights violations under their international treaty obligations.

The extensive evidence of New Zealand’s human rights violations against me and my wife are documented and outlined in my [attorney’s notice to NZIS](#) as illustrated and linked in my documentary web site www.luminadiem.com, as well as the [March 6](#) and [March 12, 2018](#) YouTube interviews and [outline](#) posted on the home page.

Will New Zealand Prime Minister Jacinda Ardern finally respond to Carolyn’s and my constant plea for justice to her office and to the New Zealand Parliament, or would she prefer to be known as Clintons’ “Jailer”. We shall see what the New Zealand people have to say!

Wilfred v US President Donald J Trump, Clintons’ “Enabler”

My story and case against the gross injustice committed against me and my family spans nearly three decades under the presidential administrations of William Jefferson Clinton, George W Bush, Barack Hussain Obama and now President Donald J Trump.

My loyalty to my country from the daily pledge of allegiance to the flag as a school child to the oath of allegiance to protect and defend as a volunteer in the US military (US Air Force with a Top Secret Clearance) during the Vietnam conflict has been a blessing and a curse. I was blessed in the belief that for over two centuries America lived its mantra of freedom and justice for all. I am now cursed by my country, being exiled as a whistleblower and now a stateless person; having told the truth to expose a Clinton/CIA conspiracy that even now is unfolding on an international scale.

This attack on my family at the highest level of the government of the United States of America and her puppet nations of Canada and New Zealand, represent the beginning of the fall of Western Civilization. In that regard, I happen to believe that the family and not the individual is the most basic element of the human race. Even Adam saw his life incomplete until Eve came on the scene, and out of that love, the human family began.

I believe that the evil being perpetrated in the world today by the Clintons, the CIA and the Rothschild's under the Global Shadow Government is directly related to the deterioration of the family and the inability of the global community to come together as one to stop these bullies once and for all! The first step is to get back to the basics of the foundational family values of honesty, integrity, and virtuous morality. As the self-centred philosophy of "I, me and my" divide us and take our generations ever further into destruction, I believe we may only have this generation to turn it around, otherwise the depravity, school shootings and wars will soon finish us.

President Trump, we truly believe you have the right idea by standing up to the old guard in Washington DC, the political "swamp" as it were, and draining away the muck to expose and vanquish those who would destroy the very fabric of the nation.

As America has been the leader of the free world for hundreds of years and therefore should not simply declare its own self-interest as number one; our most fervent wish is that you would re-focus your vision to "Make All Humanity Great Again", albeit one family, one community, one society and one nation at a time to encompass the whole world.

Understanding that Hillary Clinton is the self-declared leader of the resistance to all that you represent on behalf of the people of America; even though you have won the Presidency, you have no doubt noticed that getting things done with the Clintons as your ball and chain is barely achievable. Kudos for what you have accomplished in spite of Hillary and her vast left-wing followers, but the real challenge is the depth of her pockets and power structure through the Global Shadow Government.

As long as the Clintons and their GSG exist and continue to gather strength both financially and politically, your presidency and indeed your vision for America are in great jeopardy. You may have won the presidency by Electoral College votes; however, as long as the Clintons control the swamp, which includes many in the leadership of the US Justice Department, US Intelligence services and even your own executive branch of government; the Clintons may substantially and even actually run the government.

In effect, Mr President, Hillary Rodham Clinton is the De Facto President as long as she wields such far reaching unchallenged power within your administration. Your winning the 2016 election was only the first step to full authority as President of the United States. Your authority is not only constantly under challenge, but Hillary and her GSG cartel may actually topple your presidency before the end of your first term.

The Clintons are your personal “Bully”, and like it or not you are in a co-dependent relationship with Hillary Clinton playing the role of the abuser and you the “Enabler” for as long as you allow her to meddle unchallenged in your administration. Albeit, you cannot just *challenge* the Clintons, but in this case, you must *completely remove the bully* from the political landscape. The biblical reference is clear, in Mark 3:27 (paraphrased) Once you have captured the Strong Man (or woman), you may plunder her whole house”. Her whole house, meaning Hillary’s entire left wing national following, including within the USJD, the FBI, the CIA and even the influence of the Rothschild’s.

Stand up, wield your authority, and if necessary, fire all of those who stand in the way of your vision for America, and indeed for the international community. Richard Nixon’s Saturday night massacre was flawed because he was guilty. The Trump equivalent under the righteous rule of law and supported by the US Constitution could well be the salvation of the American way of life.

In my [open letter to you of May 17, 2016](#) I made it clear that I have the evidence to assist you in bringing down the Clintons once and for all. I remain steadfast in offering my help to include my personal testimony to their crimes. Carolyn and I have also made our plea to you and to the people of the world public through my documentary web site at www.luminadiem.com and most specifically through the online YouTube interviews posted on the home page of my site.

President Trump, with all due respect, will you finally respond to my letter and to Carolyn’s and my constant plea for justice for our family, the American people, and indeed even the global human family, or would you prefer to continue to be known as Clintons’ “Enabler”. We remain hopeful!

Best Regards to all!

Harmon and Carolyn Wilfred
