A Whistleblower's Divine Providence

More than just a tattletale, rat or truth teller, I believe a real whistleblower is under the principle of Divine Providence...

Further on this message to Tucker below and on my website at [www.luminadiem.com](http://www.luminadiem.com).

Hello Tucker,

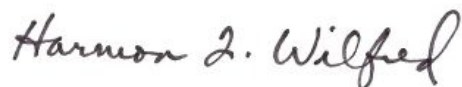

I have watched your show since its inception on Fox from my political exile in New Zealand, and admire your ability to tell the raw truth with such incredible courage and panache. I am now honored to be a member of TCN.

As a Top Secret honorably discharged US Air Force Veteran from 1969-1973; and eventual CIA asset and whistleblower before, during and since the Clinton presidency, please review the following links to [The Harmon Wilfred Story](#) and [My Video Interview Summary](#). This is a literal odyssey of my documented personal account to tell the truth under Divine Providence at the highest levels of national and international power about the Clinton's and their diabolical partnership with the CIA and the Rothschild family.

The following Nov 14, 2018 article about our forced separation will also give you an idea of the politically cruel and painful price my wife and I continue to pay in this incredible journey.

**Nov 14, 2018, Christchurch Investor Couple separated by INZ for 3 Years? [now 8 years and counting!]**

Let's talk!
